Re: Multi-Year Road Program

625 Forest Edge Drive, Vernon Hills, IL 60061

Tel 847.478.9700 ■ Fax 847.478.9701

www.gha-engineers.com

At the January 2015 Village Board meeting, the Board discussed the 2014 Pavement Condition Study. The study had included two options to consider for a five-year plan to approach the roadway improvements, covering the years 2015-2019. After discussion regarding the length and approach of the proposed road program at the January meeting, the Board requested the presentation of additional options to consider at the February meeting.

We have included for the Board packet six options for consideration of the Board, which were developed based on the two options initially presented for a five-year road program. Options 1A, 1B, and 1C each target 3.2 miles of resurfacing per year over a period of 5-years, 7-years, and 10-years, respectively. Options 2A, 2B, and 2C include an accelerated resurfacing approach to eliminate approximately 4.5 miles of "backlog" due to deferred maintenance over the last several years, again using plan durations of 5-years, 7-years, and 10-years respectively. The following is noted as the board considers the various plan options:

- Jurisdiction- There is often confusion regarding which roads located within Barrington Hills are
 maintained by the Village. A list of every road within the Village is attached for reference noting
 the various jurisdictions involved. The plans have been prepared based on the 39 miles of road
 maintained by Barrington Hills, and do not include those roads maintained by IDOT, the counties,
 or privately maintained roads.
- Approach- As noted, we have suggested two potential resurfacing approaches: (1) Resurface an average of 3.2 miles of roadway per year to maintain current overall pavement conditions, and (2) Pursue an accelerated approach to improve overall pavement conditions. Preliminary budget amounts are shown for each option, both in 2015 dollars and adjusted for inflation. For reference the 2015 budget line item for Road Maintenance Contracts includes approximately \$986,000 for the road resurfacing program.
- Plan Duration- Each approach is shown carried out through a 5-year, 7-year, or 10-year time frame based on the discussion of the Board in January. As noted previously, we had recommended a 5-year plan based on our experiences having to consistently revisit and modify the final years of a 10-year plan. If a longer range plan is desired we would reiterate that it should be considered a flexible planning document, especially in the later years of the plan.
