

Memo

To: Board of Trustees
From: Robert Kosin, Dir. of Administration
cc: Village President
Date: May 26, 2015
Re: BACOG Emergency Planning Report

Reference material was received from the Tabletop Exercise hosted May 12, 2015 by BACOG and Advocate Good Shepard Hospital for local public health preparedness. The exercise as described in the material was for 3-4 hours and involved BACOG municipalities, townships and immediate first responders. Some of the exercise goals were to discuss the ability to affectively respond to confirmed cases of community health issues and familiarize oneself with the current Emergency Operations Plans.

The exercise was referenced from one used by the Massachusetts Department of Public Health but altered to meet local needs.

This memo is prepared to maintain situational awareness of the planning and ability, in collaboration with public safety entities, recommendations and guidelines for public health emergency response.
