RE: 5.1A Building Permit Report changes

I have changed the reporting data to calendar month to coincide with the Treasurer's monthly report.

Any additional permits that are issued between the end of the calendar month and the report date are listed at the end of the report. These permits will then be included in the report for the calendar month of the date the permit was issued.

This will provide the most up to date information of permits issued if an inquiry is made regarding construction that may have not been listed on the report.
