July 6, 2014

To Barrington Hills Village President and Trustees,

I am opposed to any and all alterations proposed for Haegers Bend Road beyond its current footprint.

As an owner of property with portions running under Haegers Bend Road, I am opposed and **will not grant permission** for the Village of Barrington Hills, to use or take and I will not **donate** my property for the following:

- Reconstruction, widening, adding shoulders, adding bike lanes, marked or unmarked.
- Erecting any "Bicycle Route" or similar notification or signage.
- For a permanent or temporary construction or roadway easements.
- Allowing any construction equipment on my property.

Any of the above roadway additions of our rural historic 1840s Haegers Bend Road will:

- Cause devastation of many Heritage Trees
- Cause environmental damage
- Increase auto and bicycle traffic volumes
Current auto 2,000 to 2,300 ADT per Gewalt Hamilton report 2014
- Increase vehicle weight limit
- No longer justify current 25 MPH.

As per the 2030 Barrington Hills Comprehensive Plan, Haegers Bend Road is a **Local Service Road** and should remain at its current "footprint" width, without shoulders.

In addition, I am opposed to removing and or altering the "**island**" at and on Haegers Bend and Spring Creek Roads. It provides safety, decreases and slows traffic for all who use these roads.

Sincerely,

Signature

Dear Board members,

I am writing this letter in concern for the changing of the character of our village. The recent proposal to approve a bicycle path in the village has raised a considerable amount of issues and concerns regarding the future of the village. This includes preserving the current character of our community. It seems that something as simple as a bicycle path has exposed underlying issues that will deeply impact our community.

I feel that the bike path and changing of the road designation is a blanket and underneath it is to actually open up and allow Duda or those who intend to develop his parcels more options. It seems to convenient that this bike path is in direct connection with the land owned by Duda. I'm an avid cyclist and I bike from my house which borders this proposed bike path on a daily basis, riding throughout varies loops in the Barrington Hills. I also have a few friends who come over often on weekends, and we cycle through various roads/loops in Barrington Hills. I do not see how the cyclist would use this bike path, also I see no purpose for it for it, since it goes from no where to no where. And I don't see how it would ever connect to currently existing or planned future bike paths in the area. This project resembles infamous government financed bridges/roads from no where to no where. I really feel that there is no clear reason why or how this bike path will improve our community.

My wife attended multiple meetings regarding this problem. She has yet to come across one resident who supports this bike path. This makes me think that someone in our village administration initiated this project and for some reason interested in getting this project approved.

From my understanding of democracy on the basic village level, board and administration is here to serve the greater good of our community and the resident who live here. I don't think this bike path serves to benefit our community and clearly by the lack of support it is not important to our village citizens.

I think that because of the numerous changes that our required to build this bike path, it really should have gone through the process of a vote by all village residents, ie; attach to general voting.

Unfortunately I will not be able to attend the meeting due to family vacation. Please, take my letter as my statement as if I was there.

Sincerely,

M. K. Malinski, MD, FACC
3205 Spring Creek Rd.
Barrington Hills, IL 60010

Board Members,

Unfortunately I am unable to attend the upcoming board meeting scheduled for Wednesday, July 15th. I felt it important enough that I needed to express my opinion and hopefully this will be read and not disregarded. Over the past few months you have been bombarded with many reasons why Barrington Hills residents don't want the bike path and why horses are a significant part of this community. It seems clear that there are more against than for this endeavor.

My concerns fall right in line with the rest of the community. No bike path and leave the horse community alone. Your vote will either leave Barrington Hills the way it is meant to be or it will ultimately change the overall landscape forever. I moved here because of the acreage, the nature and conservation, the horses and yes, even the small country roads with their cascading trees. I believe the majority of the community does not want our village to start looking like other neighborhoods.

In reality you are here to serve the community. The people of this village put you in those seats because they felt you would serve their community. That you would fight to preserve our unique village structure of its country charm. That you would stand up and serve for us and not for outside interests such as bicyclists from Chicago and yes, even Duda and other land developers. I hope that when the vote is taken that you will do the right thing, that you will stand with the people of this village and vote with us and not against.

I am deeply concerned how this board has wavered off the path of taking care of this community. For the first time I think there is a sense of distrust. It seems that at the meetings we have attended not once has any of the board members gave their honest opinion. I feel the new village president, by expression alone, shows no support to us residents. I feel his agenda during his term will be to serve outside sources and literally throw our community "under the bus". Even, Mr. Kosin clearly shows no interest, at all the meetings I attended he was looking at his phone instead of listening to the board/residents speak, Very disrespectful! Also, any and if not all information that has come forward regarding the major issues in this village has come from outside sources and the diligence of the residents and not from the board. This lack of communication on the your side only gives the residents a concern that the board is showing signs of dishonesty, mistrust and deception. I hope I am wrong.

I wish not to go into point by point of why I am against the bike path and why I believe the horse community is important. As mentioned before, you have heard many times over and over why and what this community wants. This community has been clear, they have spoken and we truly hope you will do the right thing. Stand by it's residents, stand and vote to show you were put in that seat to protect our community, our beliefs and our needs. Keep and preserve our village for today and future generations to enjoy.

Sincerely,

Ann Malinski

Re: Bike lane/biker accommodation proposal

Dear Board and President McLaughlin,

Please accept this letter as my objection to the provision of bike lanes and/or other accommodations for bike riders in Barrington Hills. The construction of a bike corridor through Barrington Hills or any accommodation to bikers to this area is, in my opinion, a grave disservice to the residents of this community.

My personal experience with bikers in our community has not been pleasant. From the seemingly customary practice of biking groups acquiring most of the roadway without access to pass, to finding bikers' bottles and wrappers in my front lawn, to hearing obscenities when stopped in a car with my children and passed by a group of bikers, I have not been impressed with the lack of respect provided to the residents of Barrington Hills by visiting bikers. While I understand hearsay is less probative than actual testimony (and hopefully our friends have already personally attested to this), but by far the worst encounter with bikers was told to my husband and I by our friends who live on Oak Knoll, who witnessed a biker defecating on the side of their property.

I do not believe that a bike corridor or accommodation in any area of Barrington Hills will redirect biking traffic to that particular access only, but will rather welcome bikers from other communities to our own, creating additional traffic, garbage and disrespect towards the members of our community. As such, I ask that the proposed resolution in opposition to the provision of bike accommodations be adopted by the Board.

Please also accept my most sincere thanks for your time and energy spent in representing our community.

My best,

Angela C. Wilcox
7 Hickory Lane, Barrington Hills

Public Hearing July 16, 2014 Haegers Bend Road

To the Barrington Hills Village President McLaughlin and Trustees:

- Stop the madness of the proposed HIGHWAY for Haegers Bend Road. No need for Eminent Domain in addition to its litigation expense.
- Stop the madness of implementing any bikeway plan through our Village. Residents do **not** want it.
- Stop any and all planning with Chicago Metropolitan Agency of Planning (CMAP). Village association is not required.
- Stop considering outside sources of funding for Village roadway projects. To many "strings" attached.
- Immediately restore our Official Comprehensive Plans classification for Haegers Bend, Plum Tree, Spring Creek and Ridge Roads, to all **Local Service Roads**. Immediate action needed to safe guard our Village's future development and threats of urbanization.

As a reminder, the Village residents and voters will be judging YOU and all YOUR future actions and decisions of the above issues. Only they will decide whether or not to retain you in office in upcoming elections.

Bonnie Duresa

PETITION

The undersigned hereby petition and notify the Barrington Hills Village President and Trustees; we oppose the removal or any alterations of the "island" at Haegers Bend and Spring Creek Roads. Its physical design slows and reduces motor vehicle traffic as well as improves the safety for all using these roads.

PETITION

The undersigned hereby petition and notify the Barrington Hills Village President and Trustees; we oppose the removal or any alterations of the "island" at Haegers Bend and Spring Creek Roads. Its physical design slows and reduces motor vehicle traffic as well as improves the safety for all using these roads.

OPPOSITION TO PROPOSED BIKEWAY CONNECTION ON
ANY AND ALL ROADS IN BARRINGTON HILLS

By signing this petition We, Barrington Hills Residents, Taxpayers and Passionate Voters want to express our strongest opposition to any bike lanes, bike paths, or any other so called improvements for bicycle riders in our village and on our roads.

We already have enough problems driving on our village roads, which never were meant to be shared with excessive number of bicyclist.

As taxpayers, We do not need any future lawsuits, maintenance fees and/or expenses associated with the so called bike lanes.

We demand any planning, consulting, and spending in the subject matter to be stopped and abandoned permanently.

As taxpayers, We see a substantial communication gap between the Village and the residents regarding present planning and spending projects.

Certification Letter

I, Bonnie Duresa residing at 1001 Plum Tree Road, Barrington Hills, Illinois, do hereby swear that the attached is a copy of the original Petition submitted to the Barrington Hills Plan Commission on April 14, 2014.

I do hereby certify that all the signatures were from residents of Barrington Hills, all signed in my presence and that to the best of my knowledge and belief are the persons so signing are opposed to bike path or lane construction on any Village roads.

Signed and sworn (or affirmed on May 20, 2017 before me

PETITION

We the undersigned hereby petition and notify the Barrington Hills Village President, Trustees and Members of the Plan Commission, that we the undersigned are adamantly opposed to any bike path construction and or marking of any roads in the Village of Barrington Hills to accommodate bicycles. Bike paths or lanes means more cyclists entering our Village along their intrusion of our privacy and added risks of our security and safety. Bike paths will forever alter the rural equestrian community and our oasis of another time.

P E T I T I O N

We the undersigned hereby petition and notify the Barrington Hills Village President and Trustees; we as property owners adjacent to Haegers Bend Road, oppose and DO NOT SUPPORT any so called roadway improvements as: reconstruction, widening, adding of bike paths, bike lanes, markings and related signage on or alongside the roadway in Barrington Hills. This road reconstruction would cause devastation of many bushes and Heritage trees, providing screening of our property, sheltering wildlife, and disrupting enjoyment of our backyards.
