Re: Refuse Container Cover

In April 2017 the Village adopted the ordinance for refuse containers to have a secure cover when placed roadside for pick-up.

http://barringtonhills-il.gov/records/ordinances/2017Ordinances/Ord_17_08.pdf

The effective date was October 1st and the scavenger companies have been contacted regarding the expected service standards for their customers' containers.

There will then be continual promotion throughout September about the good practice of using container with a cover when setting out waste containers. The information efforts will continue after the enforcement date with the intent of establishing the self-realization of the benefit of the requirement rather than just avoidance of a penalty.
