#### SERVICES TO BE PERFORMED UNDER THIS AGREEMENT

It is the intention of this Agreement to provide for snow removal and ice control for all those roads located within the Village specified on <u>Exhibit C</u> attached hereto. These services shall include, but not necessarily be limited to the following;

- a. Snow plowing.
- b. Ice control.
- c. Salting.
- d. Salting of intersections required by emergency agencies.
- e. The removal of snow if snow accumulates in large amounts from intersections, but not including the costs of any necessary trucking of the snow to locations outside the Village.
- f. Replacement of knocked down mail boxes using standard USPS mail boxes and 4"x4" posts.
  - g. Repair of shoulder damage done by snowplows and salt damage to lawns.

The aforesaid activities shall be carried out by the Road District in accordance with the "Village of Barrington Hill - Snow and Ice Maintenance Standards", attached hereto as <a href="Exhibit D">Exhibit D</a> on an "as needed" basis and as determined by the mutual agreement of the Highway Commissioner of Cuba with either the Village Administrator of the Village, the Village's Trustee in charge of roads, the Village's President or the Barrington Hills Police Department as agent for the Village, through consultation and mutual agreement as needed from time to time. Provided, however, that the Highway Commissioner of Cuba shall have the right to determine when snow plowing and/or ice control activities are necessary and when to begin these activities without first receiving any authorization from the Village or any official of the Village.

The Road District will supply necessary equipment to undertake the necessary activity as delineated above and will include the purchase of any additional equipment needed at the sole cost of the Road District.

#### **MATERIALS:**

The scope of this Agreement shall not include salt or liquid material. Any such material that is required to be applied to Village streets shall be determined by the Road District as necessary to reduce the pavement to base asphalt within a reasonable period of time depending on the severity of the snow and/or ice event. The cost thereof shall be billed monthly to Village separately at the actual cost incurred by Cuba in procuring the same without mark-up.

All other necessary materials to carry out the scope of this Agreement, including, but not limited to, equipment, fuel, and other associated materials shall be paid for solely by the Road District. No portion of the cost of such materials (other than salt and liquid materials as provided above) will be for the account of the Village.

#### **COMMUNICATIONS:**

- a. The Road District will furnish by e-mail to the Village's Chief of Police and the Trustee of Roads and Bridges Committee a work plan for snow removal and salting 24 hours in advance of a predicted snow event as reasonably anticipated by the Road District and will update the Village 12 hours in advance of the snow event. The Road District will also notify the Village's Chief of Police and Trustee of Roads and Bridges by e-mail when snow removal crews begin working on Village roads. The Road District will endeavor during the event to inform the Village of progress and anticipated completion times as and when they are determined.
- b. The Road District subscribes to a private weather forecasting service which predicts snow events and issues snow alerts during a snow event as well as regular updates during the event. The Road District will promptly furnish the Village with copies of these reports not in an attempt to furnish the Village with a private weather forecasting service but as part of the Road District's notification procedures to the Village.
- c. During a snow event the Village Police Department and the Cuba Highway Commissioner will communicate directly by radio or telephone numbers furnished to the

- other as necessary during the event to keep the other apprised of issues and problems occurring within the Village.
- d. As a further step to insure communication and cooperative efforts designated members of the Village Police Department and the Cuba Township Highway Commissioner will meet in November of each year to discuss the snow and ice maintenance and standards as well as to discuss procedures for the removal of ice and snow and will meet thereafter during the season as determined by the Chief of Police and the Cuba Highway Commissioner as necessary.

- 4. In the event the snow season in each term is light and all funds paid pursuant to this Agreement are not allocated for snow events, the Village shall be entitled to contract for additional services from the Road District in accordance with the fee schedule set forth in Exhibit E, until all unused funds from the snow season are exhausted. The Road District shall be solely responsible for setting the schedule for commencement and completion of all such additional work for which the Village contracts. In the event the snow season in each term is greater than estimated for purposes of this Agreement, the Village will pay for all additional salt related services within thirty (30) days of being invoiced for same by the Road District.
- 5. In the event that the Village fails to timely pay the Road District, the Road District shall be under no obligation to continue to perform the terms of this Agreement.

#### VILLAGE OF BARRINGTON HILLS SNOW AND ICE MAINTENANCE STANDARDS

- 1. During the period commencing November 1 and ending April 1, or as seasonal conditions before or after those dates shall require, Cuba shall, within two (2) hours after receipt of a service request from the Village as provided herein, plow the roads, streets and highways designated on the Village Road Map provided to Cuba from time to time so as to enable the reasonable use of said roads, streets, and highways consistent with the weather conditions. In the event of snowfall occurring after 12:00 midnight, the best efforts of Cuba shall be completed to have snow removed and/or icy road surfaces on the designated streets treated by no later than 7:00am.
- 2. Plowing or surface treatment shall begin within two (2) hours after receiving a telephone request from the Village for winter maintenance services for all or part of the streets under the jurisdiction of the Village.
- 3. Under all circumstances, plowing shall begin within two (2) hours after the accumulation of two (2) inches or more of snow on the roadways. Plowing may not normally be required on snowfalls of less than two (2) inches, unless specifically requested by the Village. All roads shall be cleared of snow within twenty-four (24) hours after the snowfall stops. Plow Blades shall be capable of removing snow to within approximately one-quarter (1/4) inch of the paved surface. A "bare pavement" policy shall not be used.
- 4. When unusually heavy (6" or more) snow falls within a twenty-four (24) hour period, exceptions to the above policy for clearance time may be made. In these cases, Cuba shall demonstrate to the satisfaction of the Village Engineer that it is making every attempt to clear the snow as quickly as possible with available equipment and/or is subcontracting needed assistance to satisfy the request for service. After these heavy (6" or more) snowfalls, snow shall be cleared from all roads within seventy-two (72) hours of when the snow stops.
- 5. Salt should be applied at a rate to be agreed to by the Village Engineer and the Highway Commissioner and may be adjusted depending on conditions. Salting shall be done in accordance with the standards of the *Snow Fighters Handbook*.
