3. Public Comment:

Chairman Freeman announced her intent to move public comment to before the planned public hearings to invite public comment from any member of the public wishing to address the Zoning Board of Appeals. One resident provided comment.

PUBLIC HEARING

4. Official Zoning Map 2015 Edition

Chairman Freeman opened the public hearing on the 2015 Zoning Map at 7:40 p.m. Administrator Kosin presented information relative to its posting, and the purposes for its presentation before the Board. Greg Newton, a representative of Village engineer, Gewalt Hamilton, informed the Board that the changes to the Zoning Map were minor, reflecting the new year and changes in nomenclature for roads.

Member Stieper commented that the map did not reflect the changes to zoning resulting from approval of the horse boarding text amendment, which, he stated effectively changed the residential zoning reflected on the map to mixed use zoning. Discussion ensued as to whether there should be some symbols on the map, and concern was noted that the color green used on the map was not definitive enough to show borders of different uses.

Chairman Freeman closed the public hearing.

Member Benkendorf moved, seconded by Member Anderson to approve the 2015 Zoning Map. Discussion ensued relative to whether the map needs to reference any change resulting from adoption of the horse boarding text amendment. Roll call: Chairman Freeman, Members Anderson, Benkendorf, Rosene, Wolfgram voting “aye.” Member Stieper voting “nay.” The Motion Carried.

5. Amendment to Special Use Permit – 350 Bateman Road

Chairman Freeman opened the public hearing.

John Rosene addressed the Board, providing background on the existing special use permit, and the reasons for seeking an amendment to the existing permit at this time. He also presented the findings of fact required to support a special use permit.

Dialogue ensued between the Board and the petitioner, specifically regarding the reasons for: (1) making an application for permit now, when the current permit does not expire until December 2015, (2) whether the Board should put any limit on the number of

tickets which can be sold, (3) whether the Village can restrict or allow use of private roads, and (4) whether the Village should, or is, insured for the use of the property through special use for the Kalaway Cup.

Members of the public spoke in favor of the grant of the amendment.

The public hearing was closed.

Member Anderson moved, seconded by Member Benkendorf to approve finding of facts as follows:

Standards for Special Use Permit:

1) That the establishment, maintenance, or operation of the special use will not detrimental to endanger the public health, safety, morals, comfort or general welfare.

Public events have taken place on the polo field at 350 Bateman Road since 1996. The Kalaway Cup has taken place once a year since 2005. Until 2008, the entire length of Deepwood Court) and then on Deepwood Road (from Bateman Road to where Deepwood Road connects with Deepwood Court) and then on Deepwood Court to the westernmost easement into the polo field was used for polo traffic on a weekly basis during the polo season without problems or comments. Petitioner is seeking use of these roads for only one day a year. The adjacent neighbors are the Meisters, Drurys, McLaughlins, Yetarians and Robinsons, all of whom are equestrians and use these roads for equestrian purposes.

2) That the special use permit will not be injurious to the use and enjoyment of other property in the immediate vicinity for the purposes already permitted, nor substantially diminish property or impair property values within the neighborhood.

Equestrian uses are permitted uses on every adjoining property of the polo field. Public events have taken place on the polo field almost every year since 1996. The BHPC has hosted Kalaway Cup for 10 years without complaints.

3) That the establishment of the special use will not impede the normal and orderly development and improvement of surrounding property for uses permitted in the district.

Development in the vicinity of the polo field is limited to minimum 5-acre zoning. 100 percent of the properties immediately adjacent to the polo field are 5-acre properties or larger (Google Earth photo provided), all of which have facilities for equestrian purposes. The polo field is used solely for equestrian purposes. The public event is, in fact, a celebration of the equestrian lifestyle and character of Barrington Hills. Accordingly, the special use would have no effect on the normal and orderly development and improvement of surrounding properties for uses permitted in the district.

4) That adequate utilities, access roads, drainage and/or other facilities have been or are being provided.

Adequate utilities, access roads, drainage and other necessary facilities are either already in place or provided. BHPC polo activities at the 350 Bateman Road polo field are temporary in nature, from June 1 thru September 15 each year. The public event is also temporary, being one day only. Other than a scoreboard and an announcer stand, both erected by BHPC's predecessor club who operated the field between 1999 and 2003, there are no permanent fixtures added to the field. No permanent electrical service or drainage is required. Access roads are in place. Sufficient portable toilets are provided for the public event and removed as soon as possible following the event. Traffic is controlled with the help of off-duty police hired for the event. Clean-up crews police the area the evening of the event and the following day. The use of the roads requested by petitioner would have no effect on utilities, access roads, drainage and/or other facilities.

5) That adequate measures have been or will be taken to provide ingress and egress so designed as to minimize traffic congestion in the public streets and roads.

Two easements on Deepwood Road and Deepwood Court allow the owners of 350 Bateman Road and their tenants and guests to access the polo field. The BHPC has consistently taken measures to minimize traffic congestion in the public streets and roads. Police records and lack of complaints demonstrate that impact on local residents is minimal. However, BHPC continues to be willing to engage off-duty police officers to address traffic concerns.

6) That the special use shall in all other respects conform to the applicable regulations of the district in which it is located, except as such regulations may in each instance be modified by the board of trustees pursuant to the recommendations of the zoning board of appeals.

The BHPC already has a special use permit to use the polo field. As part of that special use, the BHPC has been allowed to hold a public event on the field each year. Said use(s) are clearly contemplated as permitted by Village Zoning Ordinance. The BHPC intends to comply with all village regulations.

Member Stieper moved to table until expiration of first five year special year permit to October or November. Chairman Freeman suggested that the motion is more appropriately a motion to postpone until that date. Member Stieper agreed to move to postpone until the expiration of the existing special use to October 2015, seconded by Member Wolfgram. Discussion ensued. Member Anderson argued against postponing the vote, based on the petitioner's comment regarding multi-year sponsorship opportunities, and if the Board voted it down, the petitioner could not apply for another year. Roll Call: Chairman Freeman, Members Anderson, Benkendorf and Rosene voting "nay," Members Stieper and Wolfgram voting "aye." The Motion Failed.

Roll Call on the Main Motion: Chairman Freeman, Members Anderson, Benkendorf, Rosene, Stieper and Wolfgram voting "aye," one absent. The Motion Carries.

Member Anderson moved to approve the application, subject to the following conditions, seconded by Member Benkendorf:

10. The Polo Club may hold one Public Event per year, subject to the following:
 - i. Sanitary facilities shall be located at the four corners of the Polo Field and shall be delivered no sooner than two (2) days prior to the Public Event and shall be removed not later than three (3) days following the Public Event.
 - ii. Attendees must vacate the event premises no later than 7:30 p.m.
 - iii. Live music must cease no later than 6:00 p.m.
 - iv. No more than 2,000 adult tickets may be printed and sold for the Public Event.
 - v. During the Public Event, the Polo Club shall keep records of attendance and a summary of incidents related to the activities of the Polo Club.
 - vi. Sound amplification and air horns must be kept to a minimum in order to limit the negative impact on surrounding properties.
 - vii. The Polo Club shall engage traffic control personnel and devices for the Public Event to ensure that no parking shall be permitted on Deepwood Road and Deepwood Court.
 - viii. The Special Use Permit for the Public Event only shall expire on December 31, 2035.
 - ix. The Polo Club shall provide an acceptable Insurance Certificate to the Village, from an acceptable carrier, naming the Village of Barrington Hills as an additional insured, on a non-primary and non-contributing basis.

Roll Call: Chairman Freeman, Members Anderson and Benkendorf voting "aye," Members Stieper and Wolfgram voting "nay." The Motion Failed (four aye votes required for positive recommendation).

Public Meeting

6. Adjournment

Motion to adjourn by Member Stieper, seconded by Member Anderson. On a voice vote, all members voting "aye." The meeting stands adjourned at 9:25 p.m.

VBH ZONING ORDINANCE

5-10-7: SPECIAL USES:

(A) Purpose: The development and execution of a zoning ordinance is based upon the division of the Village into districts, within which districts the use of land and buildings and the bulk and location of buildings and structures in relation to the land are substantially uniform. It is recognized, however, that there are special uses which, because of their unique characteristics, cannot be properly classified in any particular district or districts without consideration, in each case, of the impact of those uses upon neighboring land and of the public or private need for the particular use at the particular location. Such special uses fall into two (2) categories:

1. Uses publicly operated or traditionally affected with a public interest.
2. Uses entirely private in character but of such an unusual nature that their operation may give rise to unique problems with respect to their impact upon neighboring property or public facilities.

(B) Initiation of Special Use: An application for a special use may be made by the owner of the subject property, or by another person having an interest therein with the written concurrence of the owner thereof, to use said property for one or more of the special uses provided for in this Zoning Title in the zoning district in which the land is situated.

(C) Application for Special Use: An application for a special use shall be filed in writing with the Enforcing Officer. The application shall contain such information as the Zoning Board of Appeals may from time to time, by rule, require. Notice of the time and place of such public hearing shall be published at least once, not less than fifteen (15) days nor more than thirty (30) days before the hearing in a newspaper of general circulation in the Village. The published notice may be supplemented by such additional form of notice as the Board, by rule, may require.

(D) Authorization: For each application for a special use the Zoning Board of Appeals shall report to the Board of Trustees of the Village its findings and recommendations, including the stipulations of additional conditions and guarantees that such conditions will be complied with when they are deemed necessary for the protection of the public interest.

The Board of Trustees may grant or deny any application for a special use; provided, however, that in the event of written protest against any proposed special use, signed and acknowledged by the owners of twenty percent (20%) of the property adjacent to the property proposed for a special use, and filed with the Village Clerk, such special use shall not be granted except by the favorable vote of two-thirds (2/3) of all the members of the Board of Trustees.

(E) Standards: No special use shall be recommended by the Zoning Board of Appeals unless said Board shall find:

1. That the establishment, maintenance or operation of the special use will not be detrimental to or endanger the public health, safety, morals, comfort or general welfare.

VBH ZONING ORDINANCE

[(E) Standards: con't]

2. That the special use will not be injurious to the use and enjoyment of other property in the immediate vicinity for the purposes already permitted, nor substantially diminish and impair property values within the neighborhood.
3. That the establishment of the special use will not impede the normal and orderly development and improvement of surrounding property for uses permitted in the district.
4. That adequate utilities, access roads, drainage and/or other necessary facilities have been or are being provided.
5. That adequate measures have been or will be taken to provide ingress and egress so designed as to minimize traffic congestion in the public streets and roads.
6. That the special use shall in all other respects conform to the applicable regulations of the district in which it is located, except as such regulations may in each instance be modified by the board of trustees pursuant to the recommendation of the zoning board of appeals.

(F) Conditions And Guaranties: Prior to the granting of any special use, the zoning board of appeals may recommend, and the board of trustees shall stipulate, such conditions and restrictions upon the establishment, location, construction, maintenance and operation of the special use as deemed necessary for the protection of the public interest and to secure compliance with the standards and requirements specified in subsection (E) of this section. In all cases in which special uses are granted, the board of trustees shall require such evidence and guaranties as it may deem necessary as proof that the conditions stipulated in connection therewith are being, and will be, complied with.

Specific Relief Requested:

Requesting a Special Use Permit for the construction use and maintenance of an artificial lake.

Summary of Existing Conditions:

The property is 38.84 acres and the existing pond is 1.98 acres at the 100 year flood hazard area. We propose to fill 3700 square feet of the pond to accommodate the new addition to the Music Room on the west side of the residence. The required compensatory storage for the filled area will be provided in the pond at a rate of 1.5 to 1.0 for the filled area.

The pond also serves as a reservoir for the fire protection system for the residence and the existing pump house and fire protection system will be maintained.

Evidence Supporting the Need for the Special Use Permit: (Section 5-10-7E)

1. The existing lake and the proposed modification will not be detrimental or endanger the public health, safety, morals, comfort or general welfare.
2. The special use for the lake and the proposed modification will not be injurious to the use and enjoyment of other property in the immediate vicinity for the purposes already permitted, nor substantially diminish and impair property values within the neighborhood.

3. The existing lake and the proposed modification will not impede the normal and orderly development and improvement of surrounding property for uses permitted in the district.
4. The existing lake has adequate utilities, access roads and drainage.
5. The existing lake has been located and designed to provide ingress and egress and minimize traffic congestion in the public streets and roads.
6. That the special use shall in all other respects conform to the applicable regulations of the district in which it is located, except as such regulations may in each instance be modified by the board of trustees pursuant to the recommendation of the zoning board of appeals.

Conclusion:

Granting the special use permit will allow a small portion of the existing pond to be filled to accommodate the new addition to the residence. The pond capacity will not be reduced as a result of the new work.

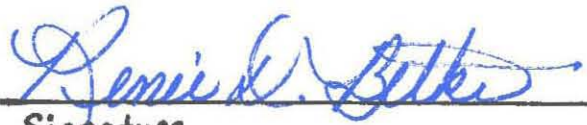

All information contained within is true and correct to the best of our knowledge. This petition for the special use permit is respectfully submitted to the Barrington Hills Zoning Board of Appeals by:

Dear Neighbor:

We hope you are well and looking forward to warmer weather. We are notifying you of a new addition to our residence and modifications to the existing pond that will require a Special Use Permit from the Village. As part of the permit process we are required to notify our neighbors within 250 feet of our property line.

The new addition will be a two story structure of approximately 8,000 square feet on the west side of our existing residence adjacent to the existing pond. The addition will match the design and materials used on the existing residence. We will need to fill a small portion of the pond to provide sufficient space for the new addition.

The modifications to the existing pond will require us to obtain a Special Use Permit from the Village. The Barrington Hills Zoning Board of Appeals will conduct a public hearing on our request on Monday, May 18, 2015 at 7:30pm at the Village Hall at 112 Algonquin Road. You are invited to attend that hearing and will be given an opportunity to present your questions or concerns. You may also submit written comments regarding our request. Please address them to the Zoning Board of Appeals and provide us with a copy.

If you have any questions or would like to see a copy of the proposed plans they are available at the Village Hall for your review.

Sincerely,

Jeffrey Sanfilippo

Re: 789 Plum Tree
Special Use Exhibit Review

Dear Ms. Frisen:

We have reviewed the special use exhibit provided for the proposed modifications to the artificial pond at the above referenced address. As the plan provided is conceptual at this point our comments will be general in nature. It is our understanding that detailed engineering plans will be provided if the applicant's request for a special use permit is approved by the ZBA.

The existing pond on the site is approximately 2 acres and accepts runoff from a tributary area that is relatively small compared to the surface area of the pond. The pond has an outlet structure which routes excess runoff directly to Spring Creek at the south end of the property. The base flood elevation of the pond has not previously been studied.

The policy of the Village is to require a special use permit for new ponds or modifications to existing ponds that exceed 500 square feet in size. Based on the submitted materials, the proposed addition to the residence at 789 Plum Tree will impact approximately 3700 square feet of the existing pond along its east shoreline. The applicant proposes to provide compensatory storage for the areas of the pond that will be filled, and modifications to the pond outlet structure will be needed due to the addition.

Based on our review, it is anticipated that the discharge characteristics of the pond will not be altered significantly, if at all, by the proposed pond modifications. The final engineering plans will be required to demonstrate that (1) sufficient compensatory storage is provided to maintain the existing storage volume within the ponds, (2) appropriate soil erosion & sedimentation control measures are provided so that sediment is not discharged into Spring Creek during construction, and (3) the proposed pond modification and construction operations shall follow the requirements of the Lake County Watershed Development Ordinance.

POSTED NOTICE- ZONING BOARD OF APPEALS

The Zoning Board of Appeals, in acting upon variations, special uses, amendments of the zoning ordinance, or appeals from action taken by the Zoning Enforcement Officer, hears all such cases at a public hearing at which neighboring property owners have a right to be heard.

If the subject to the hearing, as stated below, is of concern to you, you will have an opportunity to fully express your opinions whether for or against. For your guidance, a copy of the Zoning Ordinance is available in the Village Hall.

If it is inconvenient for you to appear at the hearing, you may file your opinion by letter, giving the street and lot number of the property owned by you and for what it is now used. Please state fully what your position is regarding the subject.

You are, by this posting, notified that the subject stated below will be heard at a public hearing at the Village Hall of Barrington Hills. 112 Algonquin Road, Barrington Hills, Illinois 60010-5199.

Date and Time of Hearing: Monday, May 18, 2015 at 7:30 p.m.

Applicant: Bellarmine Jesuit Retreat House Corporation

Address: 420 County Line Road, Barrington Hills, IL

VBH ZONING ORDINANCE

5-10-7: SPECIAL USES:

(A) Purpose: The development and execution of a zoning ordinance is based upon the division of the Village into districts, within which districts the use of land and buildings and the bulk and location of buildings and structures in relation to the land are substantially uniform. It is recognized, however, that there are special uses which, because of their unique characteristics, cannot be properly classified in any particular district or districts without consideration, in each case, of the impact of those uses upon neighboring land and of the public or private need for the particular use at the particular location. Such special uses fall into two (2) categories:

1. Uses publicly operated or traditionally affected with a public interest.
2. Uses entirely private in character but of such an unusual nature that their operation may give rise to unique problems with respect to their impact upon neighboring property or public facilities.

(B) Initiation of Special Use: An application for a special use may be made by the owner of the subject property, or by another person having an interest therein with the written concurrence of the owner thereof, to use said property for one or more of the special uses provided for in this Zoning Title in the zoning district in which the land is situated.

(C) Application for Special Use: An application for a special use shall be filed in writing with the Enforcing Officer. The application shall contain such information as the Zoning Board of Appeals may from time to time, by rule, require. Notice of the time and place of such public hearing shall be published at least once, not less than fifteen (15) days nor more than thirty (30) days before the hearing in a newspaper of general circulation in the Village. The published notice may be supplemented by such additional form of notice as the Board, by rule, may require.

(D) Authorization: For each application for a special use the Zoning Board of Appeals shall report to the Board of Trustees of the Village its findings and recommendations, including the stipulations of additional conditions and guarantees that such conditions will be complied with when they are deemed necessary for the protection of the public interest.

The Board of Trustees may grant or deny any application for a special use; provided, however, that in the event of written protest against any proposed special use, signed and acknowledged by the owners of twenty percent (20%) of the property adjacent to the property proposed for a special use, and filed with the Village Clerk, such special use shall not be granted except by the favorable vote of two-thirds (2/3) of all the members of the Board of Trustees.

(E) Standards: No special use shall be recommended by the Zoning Board of Appeals unless said Board shall find:

1. That the establishment, maintenance or operation of the special use will not be detrimental to or endanger the public health, safety, morals, comfort or general welfare.

VBH ZONING ORDINANCE

[(E) Standards: con't]

2. That the special use will not be injurious to the use and enjoyment of other property in the immediate vicinity for the purposes already permitted, nor substantially diminish and impair property values within the neighborhood.
3. That the establishment of the special use will not impede the normal and orderly development and improvement of surrounding property for uses permitted in the district.
4. That adequate utilities, access roads, drainage and/or other necessary facilities have been or are being provided.
5. That adequate measures have been or will be taken to provide ingress and egress so designed as to minimize traffic congestion in the public streets and roads.
6. That the special use shall in all other respects conform to the applicable regulations of the district in which it is located, except as such regulations may in each instance be modified by the board of trustees pursuant to the recommendation of the zoning board of appeals.

(F) Conditions And Guaranties: Prior to the granting of any special use, the zoning board of appeals may recommend, and the board of trustees shall stipulate, such conditions and restrictions upon the establishment, location, construction, maintenance and operation of the special use as deemed necessary for the protection of the public interest and to secure compliance with the standards and requirements specified in subsection (E) of this section. In all cases in which special uses are granted, the board of trustees shall require such evidence and guaranties as it may deem necessary as proof that the conditions stipulated in connection therewith are being, and will be, complied with.

Statement of Intent for Special Use Identification Signs for Bellarmine

Sign City, Corp. has been contracted by Bellarmine Jesuit Retreat House to fabricate and install two 32" tall, 114" wide, 6" deep aluminum signs at their main entrance at 420 W. County Line Road for better identification. Better identification for the Bellarmine entrance will reduce driving hazards near the driveway on County Line Road for all drivers in the area. Bellarmine has 50 – 75 new visitors every Friday afternoon and early evening. Many factors listed below contribute to drivers braking quickly and stopping to make turn into the Bellarmine entrance. Many new visitors currently drive past the driveway due to the low visibility of the driveway. The drivers must then find a way to turn around on Lake County Line Road which is only a two lane road.

Hazards of lack of identification signs for County Line Road driveway:

- A. Lake Cook Road is a two lane road.
- B. 50 miles per hour speed limit.
- C. Stopping distance for 50 – 60 mph is 175 – 240 feet, longer when wet.
- D. No shoulders on sides of road.
- E. No left-hand turn lanes.
- F. No right-hand turn lanes.
- G. No street lights.
- H. Closest stop light from East is .6 miles.
- I. Closest stop light from West is 4.9 miles.

Specs for proposed identification signs:

- J. Sign cabinet is 32" tall, 114" wide, 6" deep.
- K. All aluminum fabrication for sign cabinet.
- L. Cabinet is sprayed satin black with Matthews acrylic polyurethane paint.
- M. 8" tall, .375" thick acrylic letters for 'Bellarmine'.
- N. Engineer grade reflective white vinyl applied to 'Bellarmine' letters.
- O. Recommended viewing distance for an 8" letter is 247'.
- P. Other graphics on sign cabinet are 3M high performance vinyl.
- Q. Sign is installed on top of existing stone structures.
- R. Column is 67" tall, 36" square with limestone top.

- S. Wall is 19" x 148" x 15" with limestone top.
- T. Wall is curved. Approximate 30' radius.
- U. Cabinet is curved to match curve of wall.
- V. Cabinet is installed with stainless steel mechanical fasteners.
- W. White LEDs installed on aluminum bracket along top of cabinet.
- X. The brightness of each LED is .05 watts. Approx. 35 LEDs for each cabinet.
- Y. Aluminum bracket is angled (25 degrees) towards cabinet, away from street.
- Z. An on/off timer for LEDs will be installed.

Each of the Barrington Hills Special Use Standards below has been met:

(E) Standards: No special use shall be recommended by the Zoning Board of Appeals unless said Board shall find:

1. That the establishment, maintenance or operation of the special use will not be detrimental to or endanger the public health, safety, morals, comfort or general welfare.
2. That the special use will not be injurious to the use and enjoyment of other property in the immediate vicinity for the purposes already permitted, nor substantially diminish and impair property values within the neighborhood.
3. That the establishment of the special use will not impede the normal and orderly development and improvement of surrounding property for uses permitted in the district.
4. That adequate utilities, access roads, drainage and/or other necessary facilities have been or are being provided.
5. That adequate measures have been or will be taken to provide ingress and egress so designed as to minimize traffic congestion in the public streets and roads.
6. That the special use shall in all other respects conform to the applicable regulations of the district in which it is located, except as such regulations may in each instance be modified by the board of trustees pursuant to the recommendation of the zoning board of appeals.

Purpose of Special Use Permit for two signs for Bellarmine Jesuit Retreat House

Bellarmino Jesuit Retreat House has contacted Sign City, Corp. to apply for a Special Use Permit with the Village of Barrington Hills. The purpose for the Special Use Permit is to reduce traffic hazards of drivers not being able to locate the Bellarmine entrance safely. Sign City, Corp. proposes to fabricate two 32" x 114" x 6" aluminum cabinets with vinyl graphics and acrylic letters applied to one side. The two new signs will be installed on existing exterior stone structures facing County Line Road. They will have low wattage white LED lights installed at the top of the signs illuminating the face of the signs for identification for drivers looking for the Bellarmine entrance. Due to the low visibility of the entrance currently in a 50 mph zone, many drivers brake suddenly when they see the entrance or pass the entrance and have to attempt a U-turn on County Line Road where there are no safe areas to turn around. The new signs with illumination would help all drivers identify the entrance into Bellarmine Jesuit Retreat House in a safe manner to themselves and all drivers in the area.

Dear Barrington Hills Village Representatives,

Please know that we have authorized Rob Prigge with Sign City to apply for a Special Use Permit on behalf of Bellarmine Jesuit Retreat House. This application is related to the desire to improve our entrance signage.

If you have any questions, please do not hesitate to contact me at the retreat house or via e-mail emaiorca@jesuitretreat.org.

Sincerely,

Erin Maiorca
Associate Director

**ORGANIZATIONAL RESOLUTIONS
OF THE DIRECTORS OF

We the residents of Barrington Hills submit this petition to the Barrington Hills Village Board and to the Zoning Board of Appeals in the matter of the "789 Plum Tree Road – Special Use Artificial Lake" permit scheduled for Public Hearing on May 18, 2015:

Wherefore the Rules of Notice and Petition sets forth specifications and rules which the petitioner must comply with and rule (9) states that "No publication shall be made or hearing scheduled until the petitioner conforms to all of the rules..."

Wherefore the Following Rules, as enumerated below according to the specific rules that are violated, were not complied with:

Rule (1) The original and eight copies of the petition were not filed or submitted 30 days in advance of the hearing date. The date of the Notary letter on the petition is May 8th, 2015, only 10 days before the Public Hearing.

Rule (2) The original signed petition was not signed by the owners, Marian and Jasper Sanfilippo. The petition is signed by the architect, Mark A. Treiber, with an authorization letter from a neighbor to the property identified as Jeffrey Sanfilippo. Jeffrey Sanfilippo fails to identify his interest in the property or authorization to assign a third party to certify the Special Use petition.

Rule (3) The petition is not properly sworn as the assignment for Mark A Treiber was not made by the property owners.

Rule (5) Evidence is not provided in the petition requiring that "soil boring data, elevation and/or topographical surveys and engineering studies addressing existing and changed conditions for drainage, topography, vegetation, etc" has been complied with. In the letter dated May 14th 2015 from village engineer "Daniel Strahan specifically states his comments are general in nature because the final plans have not been submitted and the base flood elevation of the pond has not previously been studied.

Rule (6) b. The petition improperly identifies the owners of 20-20-377-005 as "Enval Liv Tr". The current owners of 20-20-377-005 were not properly identified or notified of this action.

Rule (6) e. Factual statements supporting this requested relief are insufficient or lacking all together as they fail to completely identify the waterways and tributaries that the artificial lake in question are fed by or drain into and will impact. The soil studies have not been conducted and final engineering plans have not been submitted.

Rule (7) (a) Petitioner has failed to serve all owners of contiguous or adjoining properties within 250 feet. And Petitioner has failed to "provide evidence of proper service of the notices at least ⁷² business days prior to the hearing by submitting the cancelled certified mail receipts and signed return cards or an affidavit of personal notice to adjacent property owners"

Rule (7)(b) "proper notice to state or federal agencies": All impact to Spring Creek and other affected tributaries should be noticed and evaluated by the appropriate federal and state agencies to assure other properties and waterways are not impacted. Petitioner has either failed to provide evidence of notice or failed to notify altogether state or federal agencies who would be concerned about the impact to Spring Creek and various tributaries of this special use variation.

Rule (7) (c) The petitioner has egregiously failed to comply with the requirements of their petition for a special use variance and has caused significant inconvenience to parties and witnesses by pushing forward with a hearing, knowing full well they have not complied with the requirements for a Special Use Variance as required by codes and rules of the Barrington Hills Village. Accordingly, it is the burden on the petitioner "to verify if the matter will be able to go forward on the day for the scheduled hearing."

Rule (7) (d) The public notice posting of this hearing posted at 789 Plum Tree Road does not list the relief requested and is set back into the flower bed on the petitioner's property such that it is partially concealed by vegetation and is not alongside the road or street frontage.

Therefore the basic requirements for the May 18th Zoning Board of Appeals hearing of "789 Plum Tree Road – Special Use Artificial Lake" have not been met and we the undersigned affirm this Hearing is unlawfully scheduled and should not be heard at the public hearing on May 18th or at any public hearing until all requirements of applicable Barrington Hills Village laws and rules are met.

Accordingly, we the undersigned petition the Barrington Hills Village Board and the Zoning Board of Appeals that we are opposed to the "789 Plum Tree Road – Special Use Artificial Lake"
